

Welcome to ScriptHero

We're here to help you compare cash prices for your medicine at the pharmacy of your choice. This user guide will help you get started.

What is ScriptHero?

A simpler way to get your prescriptions

Have you ever wondered why you have to pick your pharmacy before even getting a written prescription? And why is no one able to tell you what your medication will cost before you pick it up?

ScriptHero is a new way to get and manage your prescriptions. No more confusing rebates, co-pay cards or sticker shock at the pharmacy.

Just the cash price and location that works best for you.

How Does ScriptHero Work?

Prescription prices can change daily and often vary from pharmacy to pharmacy. Not only is this often costly, but it's also confusing.

ScriptHero is simple. Just send your prescription to the ScriptHero Pharmacy to unlock a nationwide marketplace of 54,000+ pharmacies. Then you can shop for the cash price and dispensing pharmacy that works for you.

How to Use ScriptHero from Your Computer

1.

Open an Internet browser on your computer (e.g., Firefox, Safari, Google Chrome, Internet Explorer).

2.

In the URL bar at the top of your internet browser, enter scripthero.com and click the “enter verification code” button.

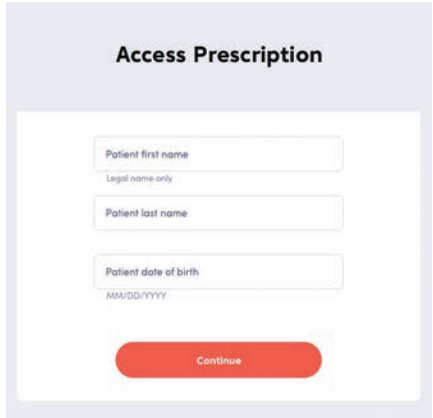

3.

Type the verification code from your text message for security.

4.

Enter your legal name and date of birth to access the prescription so we can verify it's you.

Access Prescription

Patient first name
Legal name only

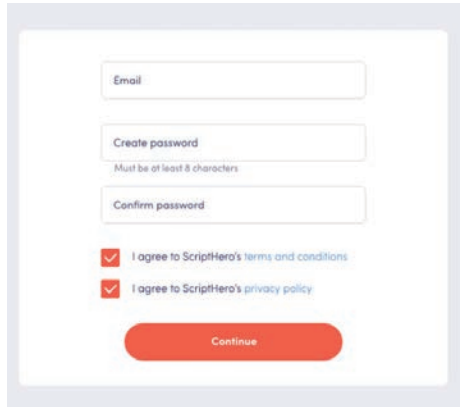

Patient last name

Patient date of birth
